## DETAILED ACTION

### *Response to Amendment*

The reply filed on 5-9-2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): No claims drawn to the originally presented invention are left in the application. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Newly submitted claims 13-18 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Invention as originally presented, i.e., EVA composition and Invention of claims 13-18 are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product such as using the EVA composition as originally claimed for producing films of adhesives.

Inventions directed to EVA composition as originally claimed in claims 1-12 and extrusion coatings comprising EVA are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different

modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions not disclosed as capable of use together and they have different modes of operation, different functions.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-5 and 13-18, i.e., all pending claims are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
